

A NOTE FROM DR. SCHRAM

Beat jet lag before it beats you.

I created JetLagPro, a free timed acupressure app because so many of you travel and have told me of your jet lag.

Acupuncturists have used timed acupressure for decades to help the body adjust to a new time zone. JetLagPro brings that same approach to your phone with timed reminders and short videos showing exactly what points to press.

Twelve points · one minute each

- ⌚ Reminders are aligned to your destination time
- ⌚ Short videos and drawings show exactly what to do
- ⌚ Works on iPhone, iPad and Apple Watch
